## PhotoMashatu Hides

PhotoMashatu conceived and built the first dedicated underground photography hides in Botswana. These hides quickly caught the attention of photographers worldwide due to the unique perspective they provide. Intimate encounters with iconic animals like elephant are frequent and the images captured from the hides have won national and international photo awards.

The underground hide provides the opportunity to have, amongst many other species, elephants drinking within a few meters from you, providing a unique and thrilling experience and very exciting photography opportunities.

## PhotoMashatu Lens Rental

PhotoMashatu has a range of professional wildlife lenses available for you to rent. These lenses have been chosen to suit the wildlife viewing of Mashatu and will add greatly to your safari experience whilst here. Once you try a lens out, you will notice a massive difference in the quality of your images.

## PhotoMashatu Photo Vehicle

The PhotoMashatu vehicle is a fully customized vehicle built exclusively for Mashatu Game Reserve. The vehicle is a totally customized design, equipped with sliding gimble heads allowing for comfortable, quick and well supported photography in a 270 degree radius for each photographer. Our vehicle offers all the perks of a private vehicle, coupled with a unique, top of the range, personal photographic experience.
